The image shows a screenshot of a Python IDE (likely IDLE 3.10.5) with a script titled 'temp.py'. The script is designed to publish sensor data (Temperature, Humidity, and Gas Concentration) to the IBM Watson IoT cloud. It includes a menu bar (File, Edit, Shell, Debug, Options, Window, Help) and a status bar at the bottom indicating 'Ln 318 Col 0'.

The script content is as follows:

```
